

## **Student council – President**

I was elected as the President of the Student Council from among 274 students, a milestone that stands as the culmination of a journey that began years earlier. My involvement in student leadership started at the age of 10, when I served as a House Captain in Class 10. Over the years, I continued to take on greater responsibilities, serving not only as House Captain but also as a Prefect and later as the Additional Secretary General. Each role shaped my leadership style, strengthened my ability to collaborate, and deepened my commitment to my school community. In Class 12, I had the privilege and honour of being selected as the President of my school, an opportunity that allowed me to represent my peers and contribute meaningfully to the school's growth and spirit.

Through the years, we have conducted various activities and functions in schools including inter school competitions like Dhananjay mohan compeititon, science colloquium, Ramanujun maths competition, Razzmataz music competition to name a few. We have also conducted various MUN for junior, secondonary and senior school. As well as a TEDx.
